800 YEARS OF HISTORY AT THE VESTE OBERHAUS

The former residence of the prince-bishops and one of the largest surviving castle complexes in Europe invites visitors on a journey through the centuries. In this special anniversary year marking eight centuries since its founding in 1219, the Veste Oberhaus is now making itself the subject of a special exhibition. Precious objects, impressive displays and interactive installations bring to life the many stages of its turbulent past. In the newly reopened Observation Tower, multimedia installations offer glimpses of distant eras, while a climb to the upper platform is rewarded by unrivalled panoramic views. The new Veste Oberhaus app gives you the opportunity to explore the castle grounds on various tours and conjures up long-vanished people and events.
